SUMMARY

Computer Science undergraduate skilled in Full-Stack Development, Generative AI, and Data Structures and Algorithms. Experienced in developing scalable web and AI-powered applications using React.js, Node.js, MongoDB, Python, Streamlit, and Gemini API. Passionate about building impactful technology solutions.

EXPERIENCE

Edubot Tech

Jun 2025 – Jul 2025

GenAI Intern

- Successfully completed 11 technical modules and 15+ hands-on assignments covering Generative AI, prompt engineering, and application development.
- Designed and deployed a capstone GenAI application integrating prompt engineering techniques across multiple real-world domains.
- Delivered project milestones within strict deadlines while collaborating with mentors and applying structured problem-solving methodologies.

PROJECTS

GenAI Assistant Suite | [GitHub](#)

- Engineered a multi-domain AI assistant supporting 4 domains (Education, Healthcare, Finance, and Marketing) using Gemini API and advanced prompt engineering techniques.
- Developed 7+ production-ready features including authentication, file/image uploads, chat history, feedback collection, session persistence, and theme customization.
- **Technologies Used:** Python, Streamlit, SQLite, Gemini API, HTML, CSS, Prompt Engineering

Stream Savvy | [Live Demo](#)

- Developed a full-stack movie and TV discovery platform with 5+ core features including watchlists, content filtering, detailed pages, and real-time interactions.
- Designed a responsive UI and optimized navigation flow, improving content discovery and overall user experience.
- **Technologies Used:** HTML, CSS, JavaScript, React, Node.js, Express.js, Socket.io, MongoDB

Face Recognition Benchmark Analysis | [GitHub](#)

- Conducted a comparative study of PCA, LBPH, and FaceNet across 3 benchmark datasets containing 6,000+ facial images.
- Evaluated 54 model-dataset-preprocessing combinations using Accuracy, Precision, Recall, F1-Score, PSNR, and SSIM metrics.
- **Technologies Used:** Python, OpenCV, Scikit-Learn, FaceNet, Computer Vision, Digital Image Processing

EDUCATION

Narayana junior college

Bachelors Degree in Computer Science

June 2021 – May 2023

percentage: 94.6

SRM University AP

Bachelors Degree in Computer Science

Aug 2023 – May 2027

CGPA: 8.65

SKILLS

Languages : C, C++, java, python, HTML, java script, CSS, node js, Express, React.js,

Core Concepts : ML, DIP, OOP's, DBMS, Operating Systems

Tools : Git, VS Code

CERTIFICATIONS

Gen AI and Prompt Engineering – Edubot Tech

Java SE 17 Developer Certificate – Oracle University

MongoDB Associate Developer – MongoDB

SAP Generative AI Developer – SAP Certified
